PROFILE

A dedicated Civil Engineering student with expertise in design, surveying, and sustainable engineering. Skilled in AutoCAD, hydraulic modeling, and geospatial analysis, with fieldwork and infrastructure management experience. Passionate about hydropower solutions and enhancing efficiency through advanced techniques.

PROFESSIONAL EXPERIENCE

Internship Trainee

Kabeli A Hydropower Project | Feb 2025 - April 2025 | Panchthar and Taplejung, Nepal

- Contributed to a 37.6 MW run-of-river hydropower project on the Kabeli River, assisting with quality checks, reinforcement, and concrete testing.
- Supported drawing analysis, BOQ preparation, and technical report drafting.
- Github Link: [Kabeli-A Internship](#)

Internship Trainee

TODA Corporation – Japan-Oriented Construction | Jun 2025 – Aug 2025 | Lalitpur, Nepal

- Participated in a specialized training program for engineers and supervisors by TODA Corporation.
- Gained hands-on experience in live-site construction, drawing analysis, site supervision, and Japanese construction practices.

Media Head

Kathmandu University Youth Red Cross Circle (KUYRCC) | Nov 2024 - May 2025

- Managed social media, created content, and boosted engagement.
- Designed promotional materials, documented events, and led campaigns.
- Contributed to website development and digital presence.

PROJECTS

Hydropower Design- Final Year Project

- Conducting hydrological, hydraulic, and structural analysis for Kabeli-A Hydroelectric Project.
- Assessing economic viability and financial aspects for optimized power generation
- GitHub Link: [Final Year Major Project](#)

RUM Project - Sunkoshi Hydropower

- Performed hydrological analysis and hydraulic design for Sunkoshi Small Hydropower (2.5 MW).
- Optimized water conveyance and sediment management systems.
- GitHub Link: [Sunkoshi Hydropower](#)

Road Design - Mars, Nepal

- Designed road alignments using SW-Road, ensuring safety, efficiency, and minimal ecological impact.
- Applied sustainable practices to minimize environmental disruption.
- GitHub Link: [Mars Nepal Road Design](#)

EDUCATION

Kathmandu University

Bachelor's Degree in civil Engineering

CGPA: **3.3 / 4** 2021-2025

Vidhya Mandir Higher Secondary School

High Level School in Science - Neb

CGPA: **3.03 / 4** 2018-2020

SKILLS

- CAD Tools:** AutoCAD 2D and Civil 3D, SW-Road, Sketchup
- Hydraulic & Water Resource Software:** EPANET, HEC-RAS,
- Structural Analysis & Modeling:** SAP (Structural integrity and analysis)
- Surveying Tools:** Total Station, GPS, and other site analysis tools, QGIS
- Project Management & Documentation:** Microsoft Word, Excel, Project libre, Canva
- Soft Skills:** Effective Communication, Flexibility, Leadership, Fast Learning
- Languages:** English (Fluent), Nepali (Native)

CERTIFICATIONS

- Water Supply Training – Kathmandu University Civil Engineering Club
- Municipal Drawing – Kathmandu University Civil Engineering Club
- Going Places with Spatial Analysis – Esri
- Introduction to Remote Sensing – Geo University
- AutoCAD 2D & 3D – SourceCAD

ACHIVEMENTS

- Hult Prize Participant (2024/2025)** – Developed Health Lens, an innovative solution supporting SDG 3 (Good Health & Well-being)
- Organizer, KUYRCC Blood Donation Program** – Recognized for contributions to Sankalpa'24 & Sankalpa'25
- Executive Member**, KU Indoor Games Club (2024-2025)
